

Sevocity (Se - vah - se - tee) is a combination of two words: "seven", which signifies good luck or "prosperity", and "velocity", which means "speed" or "journey". Together, they create a "prosperous journey". Our mission is to facilitate a prosperous journey for our customers.

Start your journey here to learn more about electronic health records (EHRs) made easy. Our secure, affordable, Internet-based solutions allow practices and health centers to easily and immediately begin using our robust EHR system. Say goodbye to expensive servers, equipment, set-up and maintenance costs. And, what could be easier than **live customer support, 24 hours a day, 7 days a week, 365 days a year?**

## Sevocity Unique features include:

- **Certified embedded ePrescribing**
- **Flexible flow sheets** to allow you to easily track labs, vitals, and other patient information over time and graphically.
- **Specialty specific features** and content that can be easily customized to individual practices and providers.
- **Outstanding support.**

## Sevocity EHR includes:

- **Live customer support** 24 hours a day, 365 days a year.
- **Regular monthly web training** classes.
- Use of **customer advisory teams** for new product feature development.
- Real time, **24 hour a day event tracking** to ensure your system is available
- **Contractual rights to your data**
- **Automated referral letters and faxing.**

## Sevocity EHR includes:

- **Health Maintenance tracking and reporting** that can be adjusted by age, gender and for individual patients.
- **Complete Immunization tracking** and age-based guidance.
- Ability to **quickly and easily add and modify personal preferences**, including medications, dosages, orders, review of systems, exams, etc.
- **Ability to save an encounter as a preference for future encounters.**
- **Free standard HL7 interfaces** to labs, hospital systems and practice management systems.
- **Automated coding recommendations** and coding assistance.

Advisor

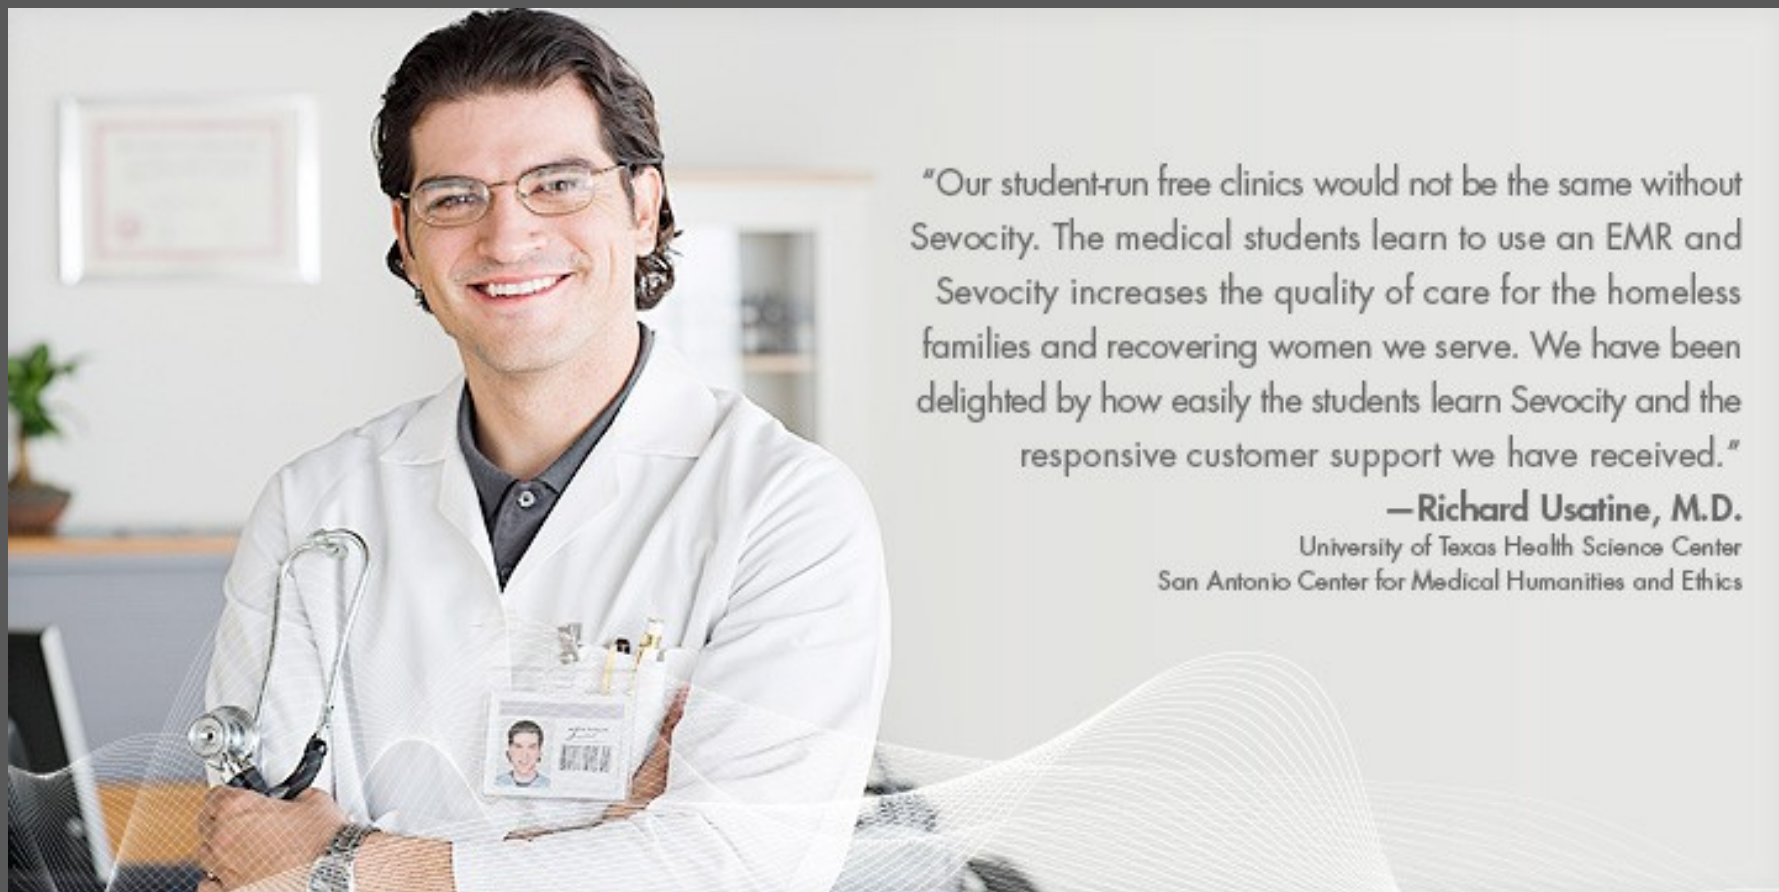

"Sevocity was the solution to document our clinical information. It's flexibility along with their exceptional customer service allow us to create a system perfect for our needs. After 16 years in the healthcare industry, and the use of other EMRs I have found in Sevocity a great product that is an incredible asset for our organization."

**—Cristina Arredondo MHA, MBA, FACMPE**

Director of Business Management  
CentroMed, El Centro del Barrio Federally  
Qualified Health Center San Antonio, Texas

"Our student-run free clinics would not be the same without Sevocity. The medical students learn to use an EMR and Sevocity increases the quality of care for the homeless families and recovering women we serve. We have been delighted by how easily the students learn Sevocity and the responsive customer support we have received."

—Richard Usatine, M.D.

University of Texas Health Science Center  
San Antonio Center for Medical Humanities and Ethics

## Testimonials

"Our group of geriatricians has been using the Sevocity electronic medical record for approximately three years. Sevocity has the advantage of being a web-based electronic record, which means the record can be easily accessible from any computer having Internet access. This frees us from concerns about backing up the database and installing upgrades. Therefore, the product is virtually maintenance-free. Individual template development allows great flexibility for different types of patient visits and conditions. The Sevocity support team has been exceptional in response to our training requests and various support issues."

- **Robert Parker, M.D.**, Associate Professor and Vice Chair of Clinical Affairs, Department of Family and Community Medicine, University of Texas Health Science

## Testimonials

- "Sevocity EHR is very user-friendly and it's fast and easy to create encounters. It only takes minutes to do procedure notes and I don't need any transcription. Also, coding and billing are so much easier with Sevocity."  
- **Melanie Pagette, M.D.**, Mockingbird Ob/Gyn, Round Rock, TX
